## CONCIOUSNESS TIME & PRAXIS

New Bharatiya Book Corporation, 2007. Hardcover. Book Condition: New. 1st Edition. The essays on Consciousness and Time inspired evidently by different views in philosophy try to see how the intellectual edifices built in the other disciplines regarding these rest often on processes which formulate no established hypotheses about their origin, structure and nature. The debates and disputes continue as much as their inaccessible nature. The various viewpoints in the disciplines of physics and philosophy merely facilitates a direction that could possibly be taken for further investigation, at times, leading to yet another mystery. The notions and boundaries of our understanding however, have not allowed human activities to be complacent and hence, enquiries and explorations continue. The essay on Praxis discovers young Marx's discerning views on the other side of the economic theories that had baffled him for sometime. Interestingly, this concept of Praxis maintain similarity in perceptions that the Bhagavadgita has earlier brought out through 'niskama karma'.
