As the nation takes a softer stance on marijuana, more Americans are using the drug. Marijuana use has increased steadily over the past five years. Among the 22 million Americans who need treatment for substance use disorders, only about 2 million - one in 10 - receive it at a specialty facility. Access to marijuana for those needing treatment is still very limited. So, whether you want to grow marijuana for personal or commercial purpose, you have come to the right place. I have created a 10 step process for you to follow in setting up your garden. This really is for those wanting to start any kind of garden, so if you choose a flower garden, or a vegetable garden on the side of your recreational garden you will already know the basics. We will discuss the location of your garden, the benefits and uses for an indoor greenhouse and even how to set up a legal dispensary if you decide that is the route you want to go.
