JOHN FRANK STEVENS: CIVIL ENGINEER (HARDBACK)

[DOWNLOAD](#)

Indiana University Press, United States, 2013. Hardback. Book Condition: New. 231 x 160 mm. Language: English . Brand New Book. One of America s foremost civil engineers of the past 150 years, John Frank Stevens was a railway reconnaissance and location engineer whose reputation was made on the Canadian Pacific and Great Northern lines. Self-taught and driven by a bulldog tenacity of purpose, he was hired by Theodore Roosevelt as chief engineer of the Panama Canal, creating a technical achievement far ahead of its time. Stevens also served for more than five years as the head of the US Advisory Commission of Railway Experts to Russia and as a consultant who contributed to many engineering feats, including the control of the Mississippi River after the disastrous floods of 1927 and construction of the Boulder (Hoover) Dam. Drawing on Stevens s surviving personal papers and materials from projects with which he was associated, Clifford Foust offers an illuminating look into the life of an accomplished civil engineer.
