GLOBAL CHANGE AND THE TERRESTRIAL BIOSPHERE

Paperback. Book Condition: New. Not Signed; Global climate change challenges ecologists to synthesize what we know to solve a problem with deep historical roots in our discipline. In ecology, the question, How do terrestrial ecosystems interact with the other earth systems to produce planetary change? has sufficient depth to be the focal challenge. This central question is sharpened further as the changes that we may be manifesting upon our planet's systems of land, sea, air and ice can have potential...
